

**OfficerReports**.com

The most comprehensive and intuitive security guard management platform in the industry.

**OfficerReports.com provides security solutions to more than 475 customers at 3,200+ locations across the globe. We help security organizations drive accountability, communication, and client satisfaction.**

## ACCOUNTABILITY

Our real-time GPS-based tracking systems help ensure that security officers are performing their duties throughout their shifts. Active security officers provide better service and act as deterrents to crime at their locations. Our real-time tracking technology includes both:

- QR Code and NFC Technology
- Mean by minute GPS position tracking

## COMMUNICATIONS

The comprehensive suite of electronic reporting software helps security organizations communicate seamlessly with their clients about the activities and incidents that are occurring at their locations. Reports include:

- Incident reports
- Daily Activity Reports
- Maintenance Reports
- Visitor Logs
- Parking Violation
- Vehicle Check-In
- Temperature Logs
- and more...

## ATTENDANCE MANAGEMENT

OfficerReports.com's time and attendance module ensures that the right security officers are on-site and on time, providing for a better experience for the security officers and ultimately providing a better experience for their clients.

- ✓ Incident reports, daily activity reports, parking violations, and more...
- ✓ Real-time GPS & NFC tracking technology
- ✓ Time and attendance tracking in real-time with alerts
- ✓ Covid 19 vaccination tracking for employees and visitors
- ✓ Active Security Officer Tracking technology
- ✓ Real-time Dashboards and reporting for clients and security organizations
- ✓ Post orders and policy manual integration
- ✓ Smart Feature alerts for tracking and clock-in & clock-out
- ✓ HIPAA certified software option for healthcare institutions
